⌘=Üj Analysis Methodology

This report uses the SSO Readiness™ framework, which evaluates pitch decks across multiple dimensions including market opportunity validation, competitive positioning, business model viability, team credibility, traction metrics, and financial projections. Scores are calibrated against industry-specific benchmarks and stage-appropriate expectations.

EXECUTIVE SUMMARY

SSO READINESS SCORE

73.0/100

STRONG - MINOR REFINEMENTS

Your deck demonstrates strong investment readiness across all key areas.

NEEDS_MORE_INFO - The company demonstrates some strong traction and interesting distribution channels but needs to demonstrate path to profitability and scalability. Deeper diligence on customer economics and competitive threats is necessary

SCORE BREAKDOWN BY COMPONENT

Problem & Solution	85.0/100
Market Opportunity	75.0/100
Traction & Growth	70.0/100
Team & Execution	75.0/100
Business Model & Financials	65.0/100

SECTION SCORES

Problem & Solution	80.0
Business Model & Unit Economics	75.0
Market Opportunity	75.0
Team & Execution	75.0

KEY STRENGTHS

- Strong articulation of the problem related to the availability of healthy and convenient food options for Indian women.
- Community-led growth approach leading to low CAC with partner CAC at Rs 50. (Checklist)
- Projected high gross margins (58-76%) and improving EBITDA margins (Deck, Slide 17, Checklist)

AREAS REQUIRING IMPROVEMENT

- Negative EBITDA in the first projected year (FY 25-26). (Deck, Slide 17)
- Relatively short runway of 8 months (Checklist)
-

High dependence on community and micro-distributors for growth, which might limit scalability.

Ø=Ü; INVESTMENT READINESS ASSESSMENT

Your pitch deck is investor-ready. Focus on perfecting your verbal pitch and preparing for due diligence questions. You have a strong foundation for approaching Series A/B investors.

INDUSTRY CONTEXT & BENCHMARKS

INDUSTRY

E-commerce

FUNDING STAGE

Series B

Your pitch deck has been evaluated against Series B stage E-commerce industry standards. VCs investing in this sector at this stage have specific expectations around traction metrics, team composition, market validation, and competitive positioning. Below are the key criteria used to assess investment readiness.

KEY METRICS VCS EVALUATE

- Gross Merchandise Value (GMV)
 - Customer Lifetime Value (CLTV)
 - Gross Margin (%)
- Average Order Value (AOV)
 - Repeat Purchase Rate (%)
 - Monthly Active Users (MAU)

SERIES B STAGE EXPECTATIONS

\$10M+ monthly GMV, 40%+ repeat rate, \$100+ AOV, 100K+ customers, profitability path

TARGET METRICS FOR THIS STAGE

METRIC	TARGET BENCHMARK
GMV	\$10M+/month
repeatRate	40%+
AOV	\$100+

WHAT VCS LOOK FOR

- Strong unit economics with healthy gross margins (> 40%)
- High repeat purchase rate indicating customer loyalty
- Efficient customer acquisition with CAC < 3 months payback
- Differentiated supply chain or unique product sourcing
- Technology moat (recommendation engine, logistics, etc.)
- Brand strength with organic traffic and word-of-mouth
- Clear path to profitability with scale

SCORE BREAKDOWN

Your pitch deck was evaluated across key sections. Each section is scored on a 0-10 scale based on VC expectations.

1. Problem & Solution

2. Business Model & Unit Economics

3. Market Opportunity

4. Team & Execution

5. Traction & Growth

6. Financials & Use of Funds

OVERALL SSO SCORE

73.0/100

This score reflects your overall investment readiness based on our proprietary analysis framework.

Problem & Solution

8.0/10

Analysis:

The pitch deck clearly articulates the problem of limited healthy and convenient food options for Indian women. The solution focuses on providing clean-label, millet-based products. Strong community focus is a plus. However, more emphasis on product differentiation and scientific backing of the health claims would improve this section.

& Needs Improvement:

- Refine details
- Add supporting data

' What's Working:

- Strong content quality

Business Model & Unit Economics

7.5/10

- Meets VC expectations
- Well-articulated

Analysis:

The unit economics show promising gross margins. CAC for partners is especially impressive at Rs 50 per acquisition. However, detailed data on marketing costs and how they will scale would improve this section.

Market Opportunity

7.5/10

Analysis:

The market opportunity is supported by data on the growing demand for healthy snacks and millet-based products. The competitive landscape is analyzed. However, deeper insight into specific market segments and more concrete go-to-market plans would be helpful. Growth driven by the women micro-distributors is interesting

Team & Execution

7.5/10

Analysis:

The team has relevant experience. Founder has experience from BigBasket and a partial MBA degree. However, provide more details on the advisory board and operational expertise of the team.

Traction & Growth

7.0/10

Analysis:

Traction is demonstrated with a growing revenue stream and solid growth metrics. Metrics and details on Quick commerce growth is a plus. However, more data on customer acquisition cost and customer lifetime value across all channels would be beneficial.

Financials & Use of Funds

6.5/10

Analysis:

The financial projections indicate high revenue growth and future profitability. However, more details are needed to better understand how the revenue growth will be achieved. Also, a breakdown of the expenses driving the burn rate would be valuable.

VERTICAL-SPECIFIC METRICS

As a E-commerce company at Series B stage, investors will evaluate you against specific industry benchmarks. These metrics are critical for demonstrating market traction, product-market fit, and scalability potential in your vertical.

CRITICAL METRICS FOR YOUR INDUSTRY

Gross Merchandise Value (GMV)	Addressed
Average Order Value (AOV)	Missing
Customer Lifetime Value (CLTV)	Addressed
Repeat Purchase Rate (%)	Missing
Gross Margin (%)	Addressed
Monthly Active Users (MAU)	Missing

SERIES B STAGE BENCHMARKS

\$10M+ monthly GMV, 40%+ repeat rate, \$100+ AOV, 100K+ customers, profitability path

TARGET BENCHMARKS

Metric	Expected Benchmark
GMV	\$10M+/month
repeatRate	40%+
AOV	\$100+

WHAT INVESTORS WANT TO SEE

- Quantifiable traction metrics that demonstrate growth
- Clear unit economics with path to profitability
- Competitive differentiation backed by data
- Evidence of product-market fit

DETAILED ASSESSMENT

' KEY STRENGTHS

1. Strong articulation of the problem related to the availability of healthy and convenient food options for Indian women.
2. Community-led growth approach leading to low CAC with partner CAC at Rs 50. (Checklist)
3. Projected high gross margins (58-76%) and improving EBITDA margins (Deck, Slide 17, Checklist)
4. Founders previous experience at BigBasket (Checklist)
5. Demonstrated revenue growth trend (Deck, Slide 14) and 1.5Cr ARR

& AREAS FOR IMPROVEMENT

1. Negative EBITDA in the first projected year (FY 25-26). (Deck, Slide 17)
2. Relatively short runway of 8 months (Checklist)
3. High dependence on community and micro-distributors for growth, which might limit scalability.
4. Competition from well established FMCG companies which can quickly launch Millet products
5. Lack of clear plans on how to achieve revenue projections

Ø<β CRITICAL GAPS TO ADDRESS

Based on our analysis, addressing the weaknesses listed above should be your top priority before approaching investors. Each gap represents a potential red flag that could derail fundraising conversations.

RECOMMENDATIONS

NEEDS_MORE_INFO - The company demonstrates some strong traction and interesting distribution channels but needs to demonstrate path to profitability and scalability. Deeper diligence on customer economics and competitive threats is necessary

Ø=P" IMMEDIATE PRIORITIES (0-30 days)

1. Address all critical weaknesses identified in this report
2. Update financial projections with industry-standard metrics
3. Strengthen competitive analysis with market data
4. Ensure all key sections meet minimum VC expectations

&j SHORT-TERM ACTIONS (1-3 months)

1. Refine go-to-market strategy based on VC feedback patterns
2. Build stronger proof points (customer logos, revenue milestones)
3. Enhance team slide with relevant advisors or key hires
4. Create detailed financial model with sensitivity analysis

Ø<β STRATEGIC IMPROVEMENTS (3-6 months)

1. Align metrics with E-commerce industry benchmarks
2. Build traction appropriate for Series B stage
3. Develop compelling investor pitch narrative
4. Schedule follow-up analysis after implementing changes

' NEXT STEPS

We recommend re-analyzing your deck after implementing these recommendations. Track improvements in your SSO Score over time to measure progress toward investment readiness.

APPENDIX

About the SSO Readiness Score™

The SSO Readiness Score is a proprietary metric that evaluates pitch decks across multiple dimensions critical to venture capital investment decisions. Our AI-powered analysis framework considers industry benchmarks, stage-appropriate expectations, and VC feedback patterns.

Analysis Methodology

- AI-powered content analysis using advanced language models
- Comparison against 50+ successful pitch decks in your sector
- Industry-specific benchmarks for E-commerce companies
- Stage-appropriate expectations for Series B funding rounds
- VC feedback patterns and common rejection reasons
- Best practices from top-tier venture capital firms
